

Why Do 4 of the Largest City Police Departments in the U.S. Rely on Multiplier Batteries?

Police and Public Safety departments demand reliability and products that they can count on as they go through grueling “real life” testing every day. Multiplier batteries deliver even under the “Big City” test. Whether or not you are in a big city, Multiplier gives you the confidence that your products will work when it matters most.

- **OEM Quality & Reliability**
- **Widest Product Range**
- **Unmatched Customer Service & Technical Support**
- **Competitive Pricing**
- **“Easy to Do Business With”**

The New Multiplier has sold in excess of 10 million battery packs to the LMR industry and is committed to providing OEM quality batteries with the strongest warranties in the business...backed with our “Easy Return” policy in the rare case that you should experience a problem. Multiplier also has a professional Technical Support team available for any questions that you may have.

Experience the Multiplier advantage for yourself!

Multiplier offers a wide range of OEM replacement, FM Approved intrinsically safe, primary lithium and extended-capacity batteries for M/A-COM, Motorola, Relm, Ericsson/GE, Vertex Standard and many other radio models.

Multiplier--Right Product, Right Price, Right Now!
